REPORT OF THE DEPUTY MINISTER.

The Right Honourable

Sir RICHARD J. CARTWRIGHT, G.C.M.G.,

Minister of Trade and Commerce,

Ottawa.

SIR,—The figures herewith recording the commercial activities of the Dominion during the fiscal year ended June 30, 1905, differ only in minor details from those published annually for a number of years past.

While the previous rapid advance has not been fully maintained yet the total trade has fallen below, (and that in appearance only), the highest point reached in the history of the country, (that of the previous year), to the extent of a trifle over \$2,500,000, the imports showing an increase in round numbers of \$7,600,000, and the exports a decrease of \$10,200,000, as shown in statement No. 10 of aggregate trade, pages 26 and 27, where it will be seen that the imports increased materially from France and the United States, were about stationary from the British Empire as a whole, and decreased from Belgium and Germany, with unimportant fluctuations from various other countries—while as regards exports they fell off largely to Great Britain and moderately to Germany and Holland, with a notable increase of over \$4,000,000 to the United States.

If, however, the figures given in statement No. 9 are examined, it will be seen that the export of foreign produce to Great Britain was less, by a little over \$2,600,000 than in the previous year,—or taking the total exports of foreign produce (same statement) the value was slightly more than \$2,000,000 less than those of the previous year, thus indicating that the reduction in the total trade for the year was the result of the smaller value of the foreign produce carried than of that carried in 1903-04.

On itemizing the principal exports it will be seen that grain fell off about \$6,100,000, of which wheat alone was over \$5,700,000. Other items of breadstuffs while fluctuating moderately show no material change in the aggregate. Butter shows a commendable increase of over \$1,250,000, but cheese fell off nearly \$4,000,000, bacon and hams over \$500,000, whereas under the item of canned meats there is shown an increase of over \$1,000,000, the net decrease in provisions being about \$2,600,000. There was a marked falling off in apples of nearly \$2,000,000; hay over \$600,000; clover and grass seed over \$800,000; potatoes, \$700,000; metals, minerals, &c., an aggregate of nearly \$2,000,000.

5-6 EDWARD VII., A. 1906

On the other hand there were increases under the headings of animals, \$800,000 fish, \$600,000 ; hides, skins, &c., \$800,000 ; paper, \$650,000 ; wood and manufactures of, \$800,000 ; manufactures, N.E.S., \$600,000 ; other miscellaneous, \$1,300,000 ; cottons, \$300,000, with quite a number of smaller items and amounts.

Notwithstanding the heavy falling off in the export of cheese, that article still holds first place, while wheat which the previous year came second has now fallen behind bacon and hams and other hog products, and therefore now ranks as third on the list. From present indications, however, before the close of the year 1905-06, wheat will have regained its former position.

Figures showing Canada's onward march are not necessarily confined to those of imports and exports. There are others of equal significance, notably those referring to banking, including circulation, deposits, loans, clearing house returns, &c., to loan companies and building societies, insurance, both fire and life, post office statistics, railways, shipping, canal, &c., &c. A condensed statement (the first issued in connection with this department's annual report), covering which will be found attached, (page xxv), in connection with which it is curious to note how the general advance in the figures has kept pace with the aggregate trade as shown in the tables of imports and exports, all with only one exception having practically doubled and in some instances far more than doubled in the last ten years,—the one exception being the number of failures recorded with relative liabilities which during the year 1905 shows only 63½ per cent in number and 57½ per cent in liabilities of those of 1896.

Attention is also called to the figures showing the operations of the Grain Inspection Staff, the quantity, grades, &c., inspected, shipped and in store, the number of licensed elevators and their capacity, &c.,—vide pages 750 to 775. In this connection I would call attention to the necessity for an amended scale of Inspection fees. The present fees were established when cars carried only about one half of the present average, that is to say when cars held say about 600 bush, whereas now they hold on an average over 1,000 bush ; yet the fee for inspection has remained unchanged, with the result that the expenditure in connection with the inspection, &c., far exceeds the receipts. The efficient manner in which the work of the Inspection Branch of the department has been carried on during the year is very gratifying.

Figures are given showing the revenue from and expense in connection with the culling of timber, which owing to the different mode now in vogue of manufacturing and marketing are gradually becoming of less importance year by year.

Chinese Immigration. Since the coming into force of the present restriction Act, very few Chinese immigrants find their way into Canada, which, however, does not diminish but rather increases the vigilance necessary in the administration of the Act and in the supervision over those in transit or otherwise exempt, without yielding a compensating revenue.

Bounties.—The statements on pages 775 to 777 show in detail the bounties paid on iron and steel during the year, and notwithstanding the reduced rates payable under

SESSIONAL PAPER No. 10

the sliding scale fixed by the Act, the aggregate amount paid during the year increased to the extent of \$631,341.32, by reason of the increased production, the rates current during the year having been on pig iron produced from Canadian ore, \$2.25, and from foreign ore, \$1.50 per ton ; on steel ingots, \$2.25 per ton ; on puddled bars, \$2.25 and on articles manufactured from steel, viz.: wire rods, \$6, and on steel angles and plates, \$3 per ton.

On lead contained in ores mined and smelted, including exported, the figures also show an increase to the extent of \$135,018, notwithstanding the gradual increased value of lead in the London market and consequent decreasing rates payable during the last half of the year, the value having fluctuated between £11 11s. 3d. and £13 8s. 9d. and the rates between 75 and 55 cents per 100 pounds. Since the close of the year the London values have increased to a figure which extinguishes, (for the time being at least), the bounty otherwise payable.

Bounty on crude petroleum appears on the list for the first time this year, the amount paid on the quantity produced from the 7th June, 1904, (the date when the Act went into force), together with the small quantity in store on that date, \$350,047, represents at one and one-half cents per gallon, 23,336,500 gallons.

The bounty paid on binder twine, that is to say on the Manilla fibre used in the manufacture of such twine, amounted to \$13,789, being but a little more than half of the amount paid during the previous year. This bounty is equal to the amount paid as export duty in the Philippine islands on Manilla fibre produced in those islands and used in the manufacture of binder twine in Canada—not however, to exceed three eighths of a cent per pound.

The total amount disbursed by the department as Bounties during the year was \$2,234,685, or almost exactly double the amount paid during the year 1903-04.

Mail Subsidies.—Under the heading of Mail Subsidies and Steamship Subventions the usual statement is given showing a very large expenditure, the details of which as regards routes, vessels employed under the various contracts, their sizes, carrying capacity, frequency of trips, distances run, freights and passengers carried, &c., will be as soon as the information can be compiled, published as a supplement to this volume.

The report of the superintendent of commercial agencies hereto attached, shows the results of increased activity in that branch of the department.

Times have changed, and it now has come about that this department which only a dozen years ago started out in a very small way, is called upon for and actually furnishes more commercial information than was given in combined annual reports published or up to that time attainable, notably as regards the tariffs and trade of foreign countries, trade openings, condensed comparative statistics with aggregate figures since confederation, &c., &c.

5-6 EDWARD VII., A. 1906

The usual six months unrevised statement of imports and exports to December 31, 1905, is also attached, from which will be seen the very large advance during those months over corresponding ones in the previous year and clearly indicating larger figures than ever for the fiscal year to end June 30, 1906.

Under existing conditions it may well be assumed that Canada's prosperity and onward progress is now so well assured that for some years to come nothing short universal calamity can cause more than a temporary halt.

Respectfully submitted,

W. G. PARMELEE,
Deputy Minister.

REPORT OF SUPERINTENDENT OF COMMERCIAL AGENCIES.

JANUARY 2, 1906.

W. G. PARMELEE, Esq., I.S.O.,
Deputy Minister,
Department of Trade and Commerce,
Ottawa.

SIR,—I have the honour to present herewith the second Annual Report of the Canadian Commercial Agency Service.

FOREIGN PRESS COMMENTS.

Since the last annual report, this branch of the public service has kept abreast with and contributed not a little to Canada's splendid expansion of foreign trade. It has performed its work with evident satisfaction as has been attested to by the continuous and exhaustive references made to the Canadian Commercial Agents' reports, not only by leading commercial and daily papers in Canada, in Great Britain and in the United States, but by their reports frequently appearing in the official reports issued by the United States Government at Washington.

This success has been due to the splendid work of the Commercial Agents who have at all times zealously endeavoured to add to the efficiency of their respective offices and increase and enlarge the markets for Canadian goods. The worth of their reports has added considerably to the demand for the weekly report, its circulation having increased from 1,000 copies on January 1, 1905 to 1,700 at the present time.

TRADE INQUIRIES.

In the matter of trade inquiries, this branch of the work now handled in the weekly report has grown to be a work of very considerable magnitude. The following table for the calendar years stated, shows conclusively the value of this feature of the commercial agency work.

TRADE INQUIRIES RECEIVED.

Statement showing the number of trade inquiries received at the Department of Trade and Commerce from Commercial Agents and other foreign sources, and published in departmental reports during the calendar years 1898 to 1905 (inclusive).

Years.	No.	Monthly Average.
1898	19	1·58
1899	167	13·91
1900	390	32·50
1901	319	26·58
1902	330	27·50
1903	470	39·16
1904	566	47·16
1905	819	68·25

TRADE INQUIRY ADDRESSES FURNISHED.

Statement showing the number of foreign addresses to trade inquiries furnished to readers of the reports of the Department of Trade and Commerce for the same period as above.

Years.	No.	Monthly Average.
1898, Quarterly report published	0	
1899, Monthly " "	5	
1900 " " "	90	7 05
1901 " " "	79	6 58
1902 " " "	134	11 16
1903 " " "	151	12 58
1904, Weekly report published	1,164	97 00
1905 " " "	2,985	248 75

The reason for the above statements showing that apparently more addresses were furnished correspondents than were received during 1904 and 1905, is by reason of the fact that some of the same addresses may be furnished to many interested applicants. The demand for addresses, as will be seen, has been greatly increased since the beginning of the publication of the Weekly Report in February, 1904.

These statements only contain those inquiries which have been published, and interested firms found directly through the mediumship of departmental reports. The inquiries received and replied to in the ordinary correspondence of the department are not included in the above statements.

EFFECT OF THE SYSTEM ADOPTED.

The far reaching effect of the system adopted in the handling of trade inquiries has resulted in gratifying proof of its thoroughness. Some firms in Great Britain have written to have their names taken off the list, as their requirements have been supplied. Others have stated that they have been 'inundated with letters from Canada,' by reason of their inquiry appearing in the Weekly Report. Another correspondent in Great Britain stated: 'Your treatment of such matters is quite refreshing, I have never had an experience of the kind before, and cannot help writing to express my appreciation. If other branches of the empire were acting in the same manner it would be a great thing for the commerce of this country.'

Many firms in Canada also have written to this Department unsolicited, referring in the highest terms to the results they have obtained in forming profitable business connections with foreign firms directly through the trade inquiries published in the Weekly Report.

The simplicity of the system is its strength. All Commercial Agents, when in receipt of trade inquiries, forward the same under their own number to the department, and the inquiries are published under a departmental number in the Weekly Report. Persons in Canada requesting addresses of the same obtain them by return mail, upon application to the Department. When an address is furnished a correspondent in Canada, the Commercial Agent is promptly advised, so that he can notify his client of the name and address of the interested party in Canada; thus completing, as it were, the chain of business connection.

SESSIONAL PAPER No. 10

INCREASING THE CIRCULATION OF WEEKLY REPORT.

Every effort has been made to increase the circulation of the Weekly Report as extensively as possible by means of circulars and otherwise. The report is not mailed to any one when not so requested for such indiscriminate distribution has not only been found injudicious, but useless. Every means, however, has been adopted to bring the Weekly Report to the attention of all those who might be interested, and a request for the report is all that is necessary to have the applicants name placed, without charge, upon the mailing list. Such request is considered sufficient evidence of interest to send the Weekly Report regularly, and the mailing list, therefore, is not filled with unnecessary names and with few, if any, readers who are not directly concerned in the trade and commerce of Canada.

AGENTS' VISITS TO CANADA.

Certain criticism in the past has been directed towards the Department for not recalling its Commercial Agents to visit Canada from time to time. During the past year, however, Mr. Larke, who for nine years has been Canadian Commercial Agent at Sydney, Australia, was given permission to return to Canada, and an opportunity given him to make a tour throughout the whole of the Dominion. He addressed Boards of Trade and other associations with very great success; he was also provided with an office and was present during the exhibition held in Toronto, where he had daily consultations with firms interested in Australian trade. A number of firms addressed letters to the Department expressing their approval of the policy of recalling the agents for the purpose of visiting the business centres of Canada, and arrangements will doubtless be made in future to permit others of the Commercial Agents to return to Canada for the same purpose.

LECTURES BY COMMERCIAL AGENTS.

Another feature introduced into the work is that of providing the Commercial Agents with lantern slides illustrating the various cities of Canada, to be used in lecturing. Circulars were sent to all the large cities of Canada requesting that sets of slides be provided for this purpose, but as yet only Toronto, Hamilton, London and Winnipeg have furnished the slides; Hamilton showing special enterprise and interest in this matter.

SECRET TELEGRAPH CODE.

The more important of the Commercial Agents have been furnished with a copy of a special secret telegraphic and cable code, which materially decreases the cost of cabling messages while ensuring secrecy.

SOME CAUSES FOR COMPLAINT.

The undersigned had occasion to comment last year somewhat severely upon the complaints received from Commercial Agents with reference to export methods, packing of goods, indifference to correspondence, goods not being up to sample, &c., upon the part of Canadians doing business abroad. Shortly thereafter, one of the most influential Boards of Trade in Canada suggested that Commercial Agents should not be so prone to complaining of Canadian business methods. Instructions were promptly sent, however, to the agents to avoid 'arm chair criticism' but to continue to report facts whenever they were presented. The general criticism has since been less frequent and the number of specific complaints have also been less numerous. Last year only the worst cases were referred to and they made a formidable array of evidence damaging to

the reputation of Canada. This year all the specific charges made by Commercial Agents are referred to, and though some are severe, on the whole there appears to have been less cause for direct complaint.

UNRELIABILITY OF BUTTER FROM CANADA.

Mr. Edger Tripp, Commercial Agent to Trinidad, in his report of June 5th (see Weekly Report, No. 74, page 16), says: '£33,506 worth of butter was imported, of which from Canada, £1,180. At the risk of incurring blame for repeating disagreeable facts, I am compelled to state after careful inquiry that this is due to unreliability as to quality and to defective packages.'

COMPLAINTS AGAINST SHIPPERS.

Mr. J. S. Larke, Commercial Agent to Eastern Australia and New Zealand, writing from Sydney under date April 17th (see Weekly Report No. 71, page 9), says: 'The usual crop of complaints have reached me this month. One is in reference to the old complaint of improper packing. A number of machines were ordered with definite instructions as to how they were to be packed. In due course an invoice was received with a covering letter stating that the instructions respecting packing were absurd, that they had made a study of it and had shipped in the manner they had found to be right. When the goods arrived half of them were found to be broken. Had the instructions sent been followed, the loss would have fallen upon the buyers, but under the circumstances it must fall on the shipper. It must be borne in mind that while Australians may occasionally make mistakes in their directions, they have had a much greater experience in the requirements for long ocean voyages than the majority of Canadians, and their instructions are based upon this experience.'

'Another is the refusal to meet the market. A Canadian manufacturer was assured of a good trade in boots and shoes if he changed his shape a little. He declined to do so.

'In another instance an article was getting fairly introduced with excellent prospects before it, but it was cutting into the trade of a United States manufacturer. The latter launched into liberal advertising, and not only regained his trade, but now has a very large share of it. The Canadian firm refused to expend any money in this way and has lost his trade, though his goods were right and his prices below the successful rival. Buyers admit this, but say people ask for the other and we must sell what they want.

'In one instance a failure was due to shipping goods made of inferior material and much below samples. In another case, it was a refusal to reduce prices when others did so. In some of these instances this state of things was accompanied by sharp comments upon the incapacity of the agent, as otherwise he would have secured a large trade. In some cases this is undeserved, as the agents have done their best.'

DELAY IN CORRESPONDENCE.

Mr. Larke, under date of January 24th (see Weekly Report No. 58, page 5,) states: 'I have again had complaints of failure on the part of Canadian firms to reply to inquiries promptly, even where the Canadian house had initiated correspondence. Arrangements for trade seemed to have gone on satisfactorily when communications suddenly cease without explanation, perhaps, to be renewed nine months or a year afterwards.'

SESSIONAL PAPER No. 10

F. O. B. SEABOARD PRICES.

Mr. G. E. Burke, Commercial Agent to Jamaica, under date of May 15th says : (see Weekly Report No. 71, page 13.)

‘I have often, through these reports, brought to the notice of the manufacturers of Canada who may be desirous of finding an outlet for their goods in this market, the absolute necessity of always quoting f.o.b. seaboard. Invariably when this is not done dissatisfaction as to intercharges is the result, and no further orders forwarded.

‘I have recently had the opportunity of seeing an invoice for paper from Montreal amounting to \$40, in which the freight charges from Halifax hence was 14s. 1d. as against 18s. 9d. as between Montreal and Halifax. Again, in an invoice of goods from London, Ontario, the sea freight was £3 9s. 6d. and charges £3 19s. 3d.

‘No doubt the heavy railway rates are responsible for this, but indentors are not accustomed to such charges in the case of goods coming from the United States and otherwise, the same being always included in quotations in the first instance, thus always setting the importer right as to what he may expect to be the landed cost of his venture. With the repeated surprises referred to above, business with Canada is seriously prejudiced.’

CARELESS SHIPPING.

Mr. P. B. Ball, Commercial Agent to Birmingham, England, under date April 1st, says : (See Weekly Report No. 65, page 3.)

‘In my report of March, 1904 (Weekly Report No. 10), I drew attention to the carelessness very usual in shipping butter from Canada. One can hardly understand the dealers of Great Britain, who purchase such enormous quantities, paying so much attention to minor matters ; but it is the small things that count in Great Britain. All countries except the United States and Canada pay special attention to these small matters.

“It is not with the quality of Canada’s well-packed and well-made butter that fault is found, but with the lack of uniformity in quality. A dealer will get one shipment under a certain brand and it is particularly good ; he gets the price and is thoroughly satisfied with it, and opens up a regular trade ; the next shipment comes, marked with the same brand, but a comparison with the former shipment is quite impossible. There would be a difference in the salting, colour, and other points, and it can be readily understood how detrimental to trade such a procedure is.’

A BUTTER COMPLAINT.

Mr. Alexander MacLean, Commercial Agent to Japan, (see Weekly Report No. 51, page 9), states :

‘The complaint is not of the butter, which is of excellent quality. A well-known mercantile firm here have a contract with a dairy in North western Canada to supply 100 boxes of creamery butter, to arrive by the first Empress steamer every month, for six months, beginning with September. The September and October shipments came on time, but not that of November, which defaulted entirely. The firm was sold out of butter a few days after the expected arrival of the November supply for ‘Canadian Creamery’ does not remain long in stock if the supply is not kept up.

‘It is very aggravating to a dealer, when he has taught his customers to rely upon him for a good article, to find his supply failing him. To keep going the firm had to resort to Australian butter, which they can always get, but which their customers do not prefer. To-day, December 8, the *Athenian* has arrived with the 100 boxes, this month’s quantity ; or, if the November quantity, it is a good month behind time. Then, although the *Athenian* brought the butter, it did not bring the papers required by the

5-6 EDWARD VII., A. 1906

customs and the shipping agents. It is more satisfactory to be able to add that the butter supplied under this contract is excellent. The trouble seems to be to get enough of it and to get it promptly.'

INQUIRIES WITHOUT CATALOGUES.

Mr. Larke, further writing from Sydney, (see Weekly Report No. 54, page 7), says :

'Every mail brings inquiries respecting the possibility of finding a market for Canadian goods, but commonly neither catalogues nor prices, and still more rarely samples and discounts. As a consequence it is almost impossible to get a good firm interested and then there is a delay of three months waiting the necessary information.'

LACK OF INTEREST AMONG CANADIANS.

Mr. A. W. Donly, Commercial Agent to Mexico, under date of January 30, (see Weekly Report No. 56, page 5), states :

'This being the case, it is greatly to be lamented that Canadian exporters and importers are not more interested in studying thoroughly the mutual necessities of both countries with a view to the creation of a trade in this, to them, new field. From correspondence that I have seen from Canadian houses, upon different subjects, one would be led to believe that Mexico were situated in a different planet than Canada, and that the difficulties in the way of trade were as great as though such were the case. There seems to exist among Canadians a general apathy in regard to trade extension so far as Mexico is concerned. Again, some consider Mexico a barbarous country and unworthy their attention, while others would like to sell their wares here but are unwilling to pay any commissions to local agents, and expect buyers to remit in advance for goods of which they have not even seen samples. It would seem as though too much prosperity in recent years had been responsible for an enervating effect.'

COMPLAINT AGAINST APPLE SHIPPERS.

Mr. MacKinnon, Commercial Agent to Bristol, England, under date of January 31 states (see Weekly Report, No. 56, page 8) :

'In this connection it will not be amiss to point out that serious complaints have been made by dealers who happen to want the "Golden Russet," and nothing else, that they have had other varieties somewhat similar in character, shipped to them under that name. This practice, though by no means general, has the regrettable effect of tending to destroy confidence in one of our most popular varieties for the late season trade, and one which, in the Midlands especially, always commands a good price.'

IRREGULARITY OF CANADIAN SHIPMENTS.

But not always can the blame of irregularity in shipments be laid at the door of the Canadian shipper, for frequently it rests upon the railway or steamship companies. Last July, Mr. Ball, in a report (see Weekly Report, No. 79, page 60) says :—

'In interviewing numbers of importers of Canadian products, such as flour dealers, oatmeal dealers and others, I find a great deal of feeling as to the manner in which shipments are made from Canada, more especially their irregularity. It seems that it particularly affects shipments from Canadian ports, such as Montreal. When all the ports are open, it is not the same, but it is particularly noticeable when Montreal opens up in the spring, and the railroad agents are all trying to make contracts to ship via Montreal. Large contracts are entered into, and shippers forward their goods. One lot

SESSIONAL PAPER No. 10

may be shipped at once, and will probably reach its destination in a month, but very often it happens that there may be a rush of goods, and they do not reach their destination under three months, and sometimes longer. When the manufacturers were here, I made several inquiries from large shippers as to this, and they stated such was the case.

‘I have heard men state that until the Canadian exporter can guarantee a greatly reduced period of time between shipment and arrival, shipments will cease entirely. In trying to find out the cause of these irregularities, it seems that the first goods arriving are put into the warehouses, and if the ship is filled by later arrivals, the goods first received remain behind, and new goods coming in continually may be packed on top of them, instead of there being a routine method of ‘first come, first served.’”

CHARGES INVESTIGATED.

This charge was taken up directly with Mr. Ball, to learn if possible the exact facts and the responsibility placed where it properly belonged. No satisfactory conclusion could be reached by reason of the Canadian shippers being loath to antagonize the transportation companies by furnishing information.

The information obtained, however, from other sources, partly relieved the steamship companies. One firm, writing to Mr. Ball, stated:—

‘The facts are these: The sellers in Canada, directly they receive an order, instead of seeing the goods promptly put on rail and rushed to the steamers at seaboard, they put on rail, issue a bill of lading and sign and date it at the time, instead of seeing it put on board and then signing it. The result is that the goods are hung up somewhere and frequently the draft matures before goods leave Canada.’

DIFFICULTIES WHICH CONFRONT AGENTS.

Difficulties from time to time have confronted the Commercial Agents in the performance of their duties in many of which it is impossible for the government to either interfere or endeavour to overcome. For instance, Mr. McKinnon reported in departmental correspondence that a well-known firm in Canada during the summer sent him samples and asked him to submit them to firms interested in their goods (opaque window shade cloth) in Bristol. Later on in the year, after Mr. McKinnon had obtained some interested firms, the same firm wrote to Mr. MacKinnon, as follows:—

‘We find that we will be unable to do any business in England this year, owing to our output being entirely sold for the following six months. At a later date we might take the matter up with you.’

This is but an instance of similar unfortunate cases reported and which are very discouraging to the commercial agents.

GOODS NOT UP TO SAMPLE.

One alleged case of goods not being up to sample has been occupying the attention of the department for some months. The case was reported in departmental correspondence by Mr. Ross, of Melbourne. It is that of a large well-known Australian importing house who make claim from an important Canadian firm of exporters for a considerable amount by reason of an alleged inferior quality in a certain shipment of goods. Mr. Ross, before reporting the matter to the department, wrote to the Canadian exporter and he refused to adjust the account. A friendly letter was addressed, therefore, by this department to the Canadian exporter, seeking to have a compromise effected. By reason of this appeal the Canadian exporter offered to make an allowance, stating further:—‘More than this I will not make, and I refuse to have anything further to do with the goods.’

5-6 EDWARD VII., A. 1906

The allowance offered was one-seventh of the claim made. The Australian firm stated that the offer was scarcely worth considering. Mr. Ross took the matter up again directly with the Canadian house, but his letters were not replied to. The Australian firm thereupon wrote to Mr. Ross, stating:—‘We have given up all hope of receiving fair and honest treatment from ————,’ and stated further that they would be ‘extremely careful in future when taking up any further business matters with Canadian manufacturers.’

The matter, however, is still the subject of correspondence with Mr. Ross and a concise report upon the case may be published later.

I have the honour to be, sir,

Your obedient servant,

F. C. T. O'HARA,
Superintendent of Commercial Agencies.

PROGRESS OF CANADA IN ITS MATERIAL INDUSTRIES.

COINAGE, WEIGHTS AND MEASURES

To assist in arriving at a comprehensive understanding of the value of foreign currencies, weights and measures (as expressed in foreign trade returns, tariffs, &c.,) as compared with those of Canada, tables have been prepared as follows:—

As regards those of Canada, the law provides that the denominations of money in the currency of Canada shall be dollars, cents and mills, the cent being the one hundredth part of a dollar, and the mill one-tenth part of a cent.

That—The currency of Canada shall be such that the British sovereign (the pound sterling) of legal weight and fineness, shall be equal to four dollars eighty-six cents and two-thirds of a cent.

In like manner the law provides as respects weights, that the unit shall be the standard pound (avoirdupois) of 7,000 grains, one-sixteenth part of the standard pound shall be an ounce ($437\frac{1}{2}$ grains) one hundred pounds a cental, and two thousand pounds a ton, and that four hundred and eighty grains shall be an ounce troy, or 5,760 grains a pound troy.

As regards measures—that the unit or standard measure of capacity, as well for liquids as for dry measures, shall be the gallon containing ten standard pounds weight of distilled water weighed with the water and air at a temperature of sixty-two degrees Fahrenheit, with the barometer at thirty inches, that the quart shall be one-fourth part of the gallon, and the pint one-eighth part of the gallon, and that eight gallons shall be a bushel.

This gallon commonly known as the ‘Imperial Gallon,’ contains 277·274 cubic inches, or 353·036 cylindrical inches.

The standard measure of length is the yard, one-third part of which it is provided shall be a foot, and the twelfth part of such foot shall be an inch.

In many countries the Metric system of weights and measures has been adopted. A separate table of Canadian equivalents of these is given in order to avoid repetition, the word ‘Metric’ being used in the general table in each case where the system is in vogue, as indicating a reference to that table.

The equivalent value of the monetary unit can only be given as respects those countries having a gold standard. Where silver is the standard, the value of the currency necessarily fluctuates correspondingly to the market value of silver bullion, and were any attempt made to quote the value of such currency it would, under present circumstances, be misleading, therefore, the weight in decimal parts of an ounce with the fineness of the coin is given instead, which will enable any one to approximate the value of the currency according to the current value of fine bar silver. As an example, say fine bar silver at 75 cents an ounce, the Bolivian dollar weighs ·801 of an ounce, its fineness is ·900, therefore $75 \times \cdot 801 = 60\cdot 075$ which $\times \cdot 900 = 54\cdot 0675$, or a small fraction over 54 cents, and the actual intrinsic value of the pure silver contained in the coin, to which should be added a reasonable allowance to cover the value of the alloy, the cost of the coinage, and in some instances exchange, the aggregate of which would be approximately the current value in Canadian currency of the dollar in question.

Unless carefully noted, the quotations as usually given of the current value per ounce of silver may be misconstrued and lead to misapprehensions, as it is sometimes quoted per ounce *fine*, and sometimes per ounce *standard*; thus for instance on a certain day the London quotation reads ‘fine silver per ounce standard 32 d.,’ while on the same day it is quoted in New York ‘69½ cents per ounce fine;’ as 32 d. is equal to a fraction over $64\frac{2}{3}$ cents, there would appear a difference of about $4\frac{5}{8}$ cents per ounce between the two prices, the New York price appearing that much in excess of the other, were it not noticed that one is based upon *standard* fineness and the other upon absolute fineness, but by reducing the New York “fine” to London “standard” (of ·925 fine, or 444 grains fine to the ounce) the actual difference between the two quotations is found to be only about $\frac{5}{8}$ of one cent per ounce, the London price being that much in excess of the New York.

SESSIONAL PAPER No. 10

To reduce the value of *standard* or sterling silver when expressed in pence to *fine* expressed in cents, multiply the pence and decimal parts thereof by 2·192.

To find the *standard* or sterling value expressed in pence and decimal parts thereof when *fine* is expressed in cents multiply the cents by 0·4562.

* Old weights and measures sometimes used. † The values in Chinese Imperial Customs Returns are always given in Haikwan taels, which are relatively in value equal to about 1.113 Shanghai taels. The tael is in reality not a standard of value (there is no such coin), but of weight, and when used in the sense of a value it only represents its weight in gold or silver, as the case may be, the real difficulty is to establish its exact equivalent in grains. Authorities differ greatly, as also does the practice in different sections of China. The Chinese are far from being inexact, and the probability is that there exists a standard, and a further probability that it is equal to 10 Japanese mommes, or 579.72 grains, which figures have been used in computing the value as above. It will be observed, however, that these figures fall short about 3.61 grains from the weight usual (say 1 ¹/₃ oz. per tael) in dealing with the weights other than those of gold and silver. § Usually reckoned same as Chinese Picul of 133 ¹/₃ lbs. ¶ This is long measure. Therefore by cloth measure 1 sun=1.4916 in. 1 shaku = 14.916 in. and 1 jo = 149.6 in.

10—D

\$ Usually reckoned the same as the Chinese picul of 133½ lbs. * Old weights and measures sometimes used.

§ Usually reckoned the same as the Chinese picul of 133½ lbs.

*Old weights and measures sometimes used.

TABLE of constant Factors, which multiplied by the current value per ounce of silver, either pure or standard as the case may be, will give the value of the silver contained in the coin referred to, to which if there be added a small percentage to cover the value of the alloy and the cost of coinage, the aggregate will equal the then intrinsic value in Canadian currency of the coin in question.

SESSIONAL PAPER No. 10

TABLE of Sterling Pence (20 to 31⁷/₈) and fractions thereof, with statutory equivalents in Canadian cents and decimal parts thereof, for use in connection with the foregoing table of Constant Factors.

EXAMPLE—Silver at 27⁵/₈ pence per oz. standard, what is the value of the silver in the Mexican dollar?
ANSWER— $\cdot 84658 \times 56\cdot 016 = 47\cdot 422$, or nearly 47²/₅ cents.

No. 41.—STATEMENT showing lines of Railways on which Elevators and Warehouses are operated, with number and capacity on each.

	No. of Elevators.	No. of Warehouses.	Total.	Capacity.
				Bushels.
Manitoba { C. N. R..	188	13	201	4,953,400
{ C. P. R..	481	20	501	14,604,230
N. W. T. { C. P. R..	297	13	310	8,904,000
{ C. N. R..	1	1	30,000
Ont. Terminals { C. P. R..	2	2	6,500,000
{ C. N. R..	7	7	11,962,000

TERMINALS.

The three largest Terminal Elevators have a capacity of 3,500,000, 3,000,000 and 3,162,000 bushels respectively. The first two are owned and operated by the Canadian Northern Railway at Port Arthur, Ontario, and the third is owned and operated by the Canadian Pacific Railway at Fort William, Ontario.

5-6 EDWARD VII., A. 1906

COUNTRY ELEVATORS.

Of the 967 elevators in Manitoba and the new Provinces of Saskatchewan and Alberta, two have a capacity of 250,000 bushels; two 150,000 bushels; one 125,000 bushels; one 108,000 and five 100,000 bushels. The balance run all the way from 3,000 up to 90,000, but the bulk of them are of 25,000 and 30,000 bushels capacity. Exclusive of the eleven Elevators that run from 100,000 upwards, the average for the remaining 956 would be 27,880 bushels.

WAREHOUSES.

The 46 warehouses run from 3,000 up to 15,000 and have an average capacity of 6,650 bushels. These warehouses are being gradually reduced in number and are 18 less than the previous year.

INCREASE IN CAPACITY.

Of the total increase in capacity for 1904-5, viz., 5,767,630 bushels, 4,490,000 is accounted for by the Ontario Terminals and 1,277,630 by Country Elevators and Warehouses.

No. 42.—COMPARATIVE STATEMENT of Licenses Issued in the Western Grain Inspection Division for 1904-05 and 1903-4.

	No. Licenses issued	
	1904-5.	1903-4.
Elevators and warehouses.....	1,022	982
Space in elevators.....	59	58
Commission merchant.....	65	36
Track buyers.....	119	16
Totals.....	1,265	1,092

While there has been an increase all around in the different kinds of licenses issued it will be noticed that there is a marked increase in the number of Track Buyers' Licenses. The fact that all license holders have to give bonds, is a great measure of security to the grain growers.

SESSIONAL PAPER No. 10

No. 43.—ACREAGE under Crops in Manitoba and the North West Territories for the Years 1900, 1901, 1902, 1903, 1904 and 1905 with yield of Wheat for the first five years.

MANITOBA.

The very considerable increase in acreage in five years for the four leading cereals grown in Manitoba and the North West as above indicated, is very gratifying to the people of the whole Dominion. It must serve to convey in a small degree, what immense results will follow the large influx of population into that vast country.

No. 55.—STATEMENT showing Fees chargeable under Statute for the Inspection of Staple Articles under the General Inspection and Grain, Inspection Acts.

INSPECTION OF GRAIN.—Per car, 40 cents ; in cargoes, 50 cents per 1,000 bushels ; in sacks, $\frac{1}{3}$ cents per cental.

WEIGHING OF GRAIN.—Per car, 25 cents ; in cargoes, 30 cents per 1,000 bushels.

INSPECTION OF HAY.—Per ton, 20 cents.

FLOUR AND MEAL.

(f.) For such inspection and branding or marking the person who $\$2$ for 100 brls. required the inspection thereof shall pay to the inspector for each and every or under. barrel and half barrel of flour or meal so inspected and branded or marked the sum of two cents exclusive of the charge for cooperage, before such flour or meal is removed ; and when any less quantity than one hundred barrels of flour or meal is offered for inspection at one time, the inspector shall be entitled to receive the full fees that would accrue to him on one hundred barrels.

(g.) As soon as any flour or meal is inspected, a bill of inspection shall be furnished by the inspector or deputy inspector without fee or reward, specifying neatly and legibly the quantity and quality ascertained by inspection, the gross weight of five per cent thereof, and the tare of one per cent thereof and the charges therefor, and the name of the mill at which the flour or meal was manufactured ;

When the inspector in his judgment deems it necessary to strip or empty out the flour to find out if there is the proper weight of flour in any cask he shall be entitled in two cents for each barrel so stripped or emptied if it proves to be of short weight, in addition to the two cents per barrel for inspecting and branding.

Fee if required to empty the brl. 2 cts per brl.

POT AND PEARL ASHES.

For every 100 lbs.	Actual cost of every barrel furnished by the Inspector.	For each new head furnished.	Cooperage and repairs on each barrel.	For additional quantity necessary to fill any partly filled barrel when required.	For removing raw ashes or other trash from barrels.
20c.		25c.	18c.	25c.	25c.

5-6 EDWARD VII., A. 1906

PICKLED FISH AND FISH OILS.

79. Every inspector or deputy inspector who inspects and brands or marks any cask or package of pickled fish or pickled fish in bulk, or smoked fish, or any fish oil, in accordance with the provisions of this Act, shall be entitled to fees at the following rates, which shall be paid by the original owner or the person who employed him in the first instance, that is to say:—

1. For each tierce of salmon, salmon-trout or sea-trout, fifteen cents ;
2. For each half-tierce of salmon, salmon-trout or sea-trout, ten cents ;
3. For each barrel of salmon, salmon-trout or sea-trout, fifteen cents ;
4. For each half-barrel of salmon, salmon-trout or sea-trout, ten cents ;
5. For each barrel of mackerel, ten cents ;
6. For each half-barrel of mackerel, five cents ;
7. For each barrel of herring, seven cents ;
8. For each half barrel of herring, four cents ;
9. For each barrel of shad, ten cents ;
10. For each half barrel of shad, seven cents ;
11. For each barrel of whitefish, ten cents ;
12. For each half barrel of whitefish, seven cents ;
13. For each barrel of pickled codfish, hake, haddock, or cat-fish, five cents ;
14. For each half barrel of the same, three cents ;
15. For each quarter barrel or kit of pickled fish, one and one-half cent ;
16. For each barrel of dry-salted codfish, hake, haddock, cat-fish, ling or pollock, five cents ;
17. For each half barrel of the same, three cents ;
18. For each barrel of bass, ten cents ;
19. For each half barrel of bass, seven cents ;
20. For each box of smoked herrings, one cent ;
21. For each half box of smoked herrings, one-half cent ;
22. For each quarter box of smoked herrings, one-quarter cent ;
23. For each barrel of cod tongues, cod sounds, halibut or eels, ten cents ;
24. For each half barrel of the same, seven cents ;
25. For inspecting, gauging and branding each puncheon of oil, twenty cents ;
26. For inspecting, gauging and branding each hogshead of oil, fifteen cents ;
27. For inspecting, gauging and branding each tierce of oil, twenty cents ;
28. For inspecting, gauging and branding each barrel of oil, fifteen cents ;
29. For inspecting empty packages, one cent ;

2. The foregoing rates shall be calculated exclusive of salt, pickle, cooperage, storage and labor employed in washing, rinsing, cleaning, nailing, screwing or re-packing and pickling any fish :

3. Provided always, that any person causing his fish or fish oil to be inspected, may employ, at his cost and charges, a cooper to attend upon and assist the inspector or deputy inspector in the performance of his duty,—in which case the inspector or deputy inspector shall not be allowed any charge for cooperage,—and the cooper so employed shall be governed and guided solely by the directions which he receives from the inspector or deputy inspector with respect to any fish or fish oil by him inspected, and not by any other person. 37 V., c. 45, s. 68 :—44 V., c. 22, s. 1 ;—48-49 V., c. 66, s. 16.

CHINESE IMMIGRATION.

No. 62.—STATEMENT showing the TRANSACTIONS under the CHINESE IMMIGRATION ACTS to June 30, 1905.

The original Act went into force as respects arrivals by vessels sailing from ports in North America on August 20, 1885, and as respects arrivals by other vessels on January 1, 1886, *vide* 48-49 Victoria, chapter 71.

The Act as it appears in the Revised Statutes, chapter 67 (1886), is slightly changed from the original. There have been since then two amendments thereto, viz. : as per 50-51 Victoria, chapter 35 (1887) and 55-56 Victoria, chapter 25 (1892).

These general Acts were repealed by the Act 63-64 Victoria, chapter 32, which came into force Jan. 1, 1901. There has been since then one amendment thereto, viz. : as per 2 Edward VII., chapter 5 (1902).

The Act 63-64 Victoria, chapter 32 (1900) and Act 2 Edward VII., chapter 5 (1902), are repealed by the Act 3 Edward VII., chapter 8 (1903), which came into force January 1, 1904.

The administration of the Act was by Order in Council of September 1, 1885, assigned to the Department of Customs and transferred to the Department of Trade and Commerce by Order in Council of March 13, 1893.

The annual revenue, expenditure, &c., has been as follows :—

*Balance held for subsequent refunds.

During the same period 20,635 Chinese have taken out certificates of leave or registered for leave up to June 30, 1905, while a very large number have left the country without so registering, having no intention of returning, so that, for this latter reason, the exact number remaining in the country is uncertain.

PART II

TRADE OF FOREIGN COUNTRIES

5-6 EDWARD VII., A. 1906

TRADE OF FOREIGN COUNTRIES.

The following tables, and other information, respecting the trade, &c., of Great Britain and some of her Colonies, as well as of several representative Foreign Countries, have been compiled for the purpose of showing in as concise manner as possible the aggregate, as well as the distribution, of the trade of such countries during each of a period of years to date of the latest available report.

BRITISH EMPIRE.

GREAT BRITAIN.

VALUE OF THE Total Imports and Exports of Merchandise, from and to each British Possession and Foreign Country for Years ended December 31, 1900 to 1904, inclusive.

IMPORTS.					EXPORTS.				
1900.	1901.	1902.	1903.	1904	1900.	1901.	1902.	1903.	1904.

5-6 EDWARD VII., A. 1906

CAPE OF GOOD HOPE.

VALUE of the Total Imports and Exports from and to each Principal Country during the Years ended December 31, 1900, to 1904, inclusive. (*Including Coin and Bullion*).

NOTE. The value of gold (produce of South African States) brought into the country for shipment at Cape ports, is not included in the returns of Imports, though included in those of Exports.

NOTE. — Imports of dutiable goods re-exported to States *outside* the South African Customs Union, and dutiable goods removed to States *within* the Customs Union are not included in this table.

NOTE :—Krona = 26·8 cts.

[illegible]

(a) The returns of the Exports to Norway in the years 1898-1901 are incomplete, owing to the abrogation in 1898 of the special law (Mellanrihologen) regulating the trade between Sweden and Norway. In 1902, however, complete returns of rail-borne Exports to Norway have been obtained.

5-6 EDWARD VII., A. 1906

SWEDEN.

Total Quantities and Values of the Principal Articles Imported (Merchandise only) during the Years ended December 31, 1899 to 1903, inclusive.

NOTE:—Krona=26·8 cts. Kilog=2·204 lbs. Ton=2,204 lbs. Litre=·2202 galls.
